# Forward Looking Statements

---

This presentation contains forward-looking statements, including statements regarding: the Company's Global Growth Agenda; expected key drivers of growth in 2021; its outlook for fiscal year 2021 revenue and earnings per share; its capital allocation priorities, strategic acquisition approach; and the expected benefits of the Company's focus on DTC eCommerce. In addition, words such as "estimates," "anticipates," "believes," "forecasts," "step," "plans," "predicts," "focused," "projects," "outlook," "is likely," "expects," "intends," "should," "will," "confident," variations of such words, and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions ("Risk Factors") that are difficult to predict and could cause the Company's performance to differ materially from what is expressed in the forward-looking statements. Risk Factors include, among others: the potential effects of the COVID-19 pandemic on the Company's business, operations, financial results and liquidity, including the duration and magnitude of such effects, which will depend on numerous evolving factors that the Company cannot currently accurately predict or assess, including: the duration and scope of the pandemic; the negative impact on global and regional markets, economies and economic activity, including the duration and magnitude of its impact on unemployment rates, consumer discretionary spending and levels of consumer confidence; actions governments, businesses and individuals take in response to the pandemic; the effects of the pandemic, including all of the foregoing, on the Company's distributors, manufacturers, suppliers, joint venture partners, wholesale customers and other counterparties; how quickly economies and demand for the Company's products recover after the pandemic subsides; changes in general economic conditions, employment rates, business conditions, interest rates, tax policies and other factors affecting consumer spending in the markets and regions in which the Company's products are sold; the inability for any reason to effectively compete in global footwear, apparel and consumer-direct markets; the inability to maintain positive brand images and anticipate, understand and respond to changing footwear and apparel trends and consumer preferences; the inability to effectively manage inventory levels; increases or changes in duties, tariffs, quotas or applicable assessments in countries of import and export; foreign currency exchange rate fluctuations; currency restrictions; capacity constraints, production disruptions, quality issues, price increases or other risks associated with foreign sourcing; the cost and availability of raw materials, inventories, services and labor for contract manufacturers; labor disruptions; changes in relationships with, including the loss of, significant wholesale customers; risks related to the significant investment in, and performance of, the Company's consumer-direct operations; risks related to expansion into new markets and complementary product categories; the impact of seasonality and unpredictable weather conditions; changes in general economic conditions and/or the credit markets on the Company's distributors, suppliers and retailers; changes in the Company's effective tax rates; failure of licensees or distributors to meet planned annual sales goals or to make timely payments to the Company; the risks of doing business in developing countries, and politically or economically volatile areas; the ability to secure and protect owned intellectual property or use licensed intellectual property; the impact of regulation, regulatory and legal proceedings and legal compliance risks, including compliance with federal, state and local laws and regulations relating to the protection of the environment, environmental remediation and other related costs, and litigation or other legal proceedings relating to the protection of the environment or environmental effects on human health; the potential breach of the Company's databases or other systems, or those of its vendors, which contain certain personal information, payment card data or proprietary information, due to cyberattack or other similar events; problems affecting the Company's distribution system, including service interruptions at shipping and receiving ports; strategic actions, including new initiatives and ventures, acquisitions and dispositions, and the Company's success in integrating acquired businesses, and implementing new initiatives and ventures; the risk of impairment to goodwill and other intangibles; changes in future pension funding requirements and pension expenses; and additional factors discussed in the Company's reports filed with the Securities and Exchange Commission and exhibits thereto. The foregoing Risk Factors, as well as other existing Risk Factors and new Risk Factors that emerge from time to time, may cause actual results to differ materially from those contained in any forward-looking statements. Given these or other risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Furthermore, the Company undertakes no obligation to update, amend, or clarify forward-looking statements.

This presentation includes non-GAAP financial measures which are indicated by footnote references. Pages 25 and 26 at the end of this presentation include reconciliations of the non-GAAP financial measures to the most comparable GAAP financial measures.

\*To supplement the consolidated condensed financial statements presented in accordance with Generally Accepted Accounting Principles ("GAAP"), the Company describes what certain financial measures would have been if environmental and other related costs net of recoveries, costs related to the COVID-19 pandemic including air freight costs, credit loss expenses, severance expenses, and other related costs and reorganization expenses and debt extinguishment costs were excluded. The Company believes these non-GAAP measures provide useful information to both management and investors to increase comparability to the prior period by adjusting for certain items that may not be indicative of core operating measures and to better identify trends in our business. The adjusted financial results are used by management to, and allow investors to, evaluate the operating performance of the Company on a comparable basis.

The constant currency presentation, which is a non-GAAP measure, excludes the impact of fluctuations in foreign currency exchange rates. The Company believes providing constant currency information provides valuable supplemental information regarding results of operations, consistent with how the Company evaluates performance. The Company calculates constant currency by converting the current-period local currency financial results using the prior period exchange rates and comparing these adjusted amounts to the Company's prior period reported results.

Management does not, nor should investors, consider such non-GAAP financial measures in isolation from, or as a substitution for, financial information prepared in accordance with GAAP. A reconciliation of all non-GAAP measures included in this presentation, to the most directly comparable GAAP measures are found in the financial tables above.
