Item 2.02 Results of Operations and Financial Condition.

On January 12, 2012, Donald T. Grimes, the Senior Vice President, Chief Financial Officer and Treasurer of Wolverine World Wide, Inc. (the "Company") will speak at the ICR XChange Annual Investor Conference in Miami Beach, Florida. Mr. Grimes' presentation includes the following disclosure regarding the preliminary, unaudited results of operations for the Company's fourth quarter and fiscal year ended December 31, 2011:

The Company is finalizing its results of operations for the quarter and fiscal year ended December 31, 2011. On January 30, 2012, the Company anticipates reporting record fourth quarter revenue of approximately \$407 million, which would represent growth of 5.7% over the prior year and record full year revenue of approximately \$1,409 million, which would represent growth of 12.8% over the prior year. While these preliminary results fall within the guidance provided by the Company on October 3, 2011, fourth quarter revenue was impacted by softness in the at-once order environment, driven by a relatively mild Fall across most of the United States and Europe and a conservative outlook by some retailers; and macroeconomic concerns and a softening retail environment in Europe, especially in the United Kingdom. Continued strong performance by the Merrell Barefoot collection and strong double-digit growth for the Company's most significant global brands, Merrell, CAT footwear and Hush Puppies, in the Company's third-party distributor markets in Asia Pacific, Latin America and Eastern Europe offset some of the macroeconomic and weather trends in the United States and Europe in the quarter.

The Company expects full year fully diluted earnings per share to approximate the low end of the range of the \$2.46 to \$2.52 guidance provided by the Company on October 3, 2011. These expected results include the impact of significantly higher non-cash LIFO expense than previously projected.

The Company's order backlog at year-end represented low single-digit percentage growth over the prior year, reflecting some caution on the part of retailers, given the macroeconomic environment and a corresponding focus on keeping inventory levels low. The Company's past-due order backlog at year-end as compared to the prior year decreased due to shorter lead-times for products manufactured in Asia and an increase in the Company's order fill rates. Adjusting for the reduction in past-due order backlog by assuming the past-due order backlog at year-end 2011 remained the same as at year-end 2010, the Company's year-end order backlog would have represented high single-digit percentage growth over last year.¹

Item 7.01 Regulation FD Disclosure.

Mr. Grimes' presentation at the ICR XChange Annual Investor Conference on January 12, 2012 includes the following disclosure regarding the Company's preliminary outlook for pension expense in 2012:

The Company is still finalizing the actuarial and related analyses, but anticipates that GAAP, non-cash pension expense in 2012 will be approximately \$10 million higher than it was in 2011. The Company's pension plans remain 100% funded and the Company expects actual cash contributions to its pension plans in 2012 to be significantly lower than they were in 2011.
